INDEPENDENT AUDITOR'S REPORT

Chairman and Members of the Board of Trustees
Gogebic-Iron Wastewater Authority
Ironwood, Michigan

We have audited the accompanying financial statements of the business-type activities of Gogebic-Iron Wastewater Authority as of and for the year ended June 30, 2005, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Gogebic-Iron Wastewater Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of Gogebic-Iron Wastewater Authority as of June 30, 2005, and the respective changes in financial position and cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis information on pages 5 through 7 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Gogebic-Iron Wastewater Authority's basic financial statements. The accompanying Other Financial Information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of Gogebic-Iron Wastewater Authority. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

GOGEBIC-IRON WASTEWATER AUTHORITY

Year ended June 30, 2005

Management's Discussion and Analysis

This section of the Gogebic-Iron Wastewater Authority's annual financial report presents management's discussion and analysis of the Authority's financial performance during the year ended June 30, 2005. It is to be read in conjunction with the Authority's financial statements, which immediately follow. In order to address the needs of external parties that read the Authority's financial statements, in accordance with reporting standards, the Authority presents fund financial statements.

Basic Financial Statements

The basic financial statements include the statement of net assets, statement of revenues, expenses and changes in net assets and statement of cash flows. The basic financial statements are prepared using the accrual basis of accounting which is the accounting basis used by private sector businesses. The statement of net assets includes all of the Authority's assets and liabilities. All revenues and expenses are reported for in the statement of revenues, expenses and changes in net assets and statement of cash flows.

The Authority consists of both the Gogebic-Iron Wastewater Authority and the Gogebic-Iron Wastewater Board. The Authority owns the physical properties, is responsible for the related indebtedness and is responsible for raising monies from the participating units to cover debt principal and interest payments plus monies with which to fund operations of the system. The system is operated by the Gogebic-Iron Wastewater Board (the Board), an independent joint board comprised of members from each of the constituent municipalities participating in the sewage disposal system. The Board's source of revenues is an operating fee received from the Authority from which the Board pays the operating costs.

The incorporating municipalities creating the Authority were City of Ironwood, Township of Erwin and Charter Township of Ironwood. The Board consists of City of Ironwood, Charter Township of Ironwood and City of Hurley, Wisconsin.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Management's Analysis

The Authority is funded by sewage treatment charges to participating municipalities.

The difference between the Authority's total assets and total liabilities is labeled as net assets. The difference is similar to the total owners' equity presented by a commercial enterprise. As shown above net assets consists of \$9,374,043 invested in capital assets, \$2,554,347 restricted and \$491,574 unrestricted as of June 30, 2005. Net assets decreased during the year by \$513,819. However, included as an operating expense for the year was depreciation expense of \$798,850. Net of depreciation expense, net assets increased by \$285,031.

As shown above net assets consists of \$9,903,557 invested in capital assets, \$2,603,331 restricted and \$426,895 unrestricted as of June 30, 2004. Net assets decreased during the year by \$504,817. However, included as an operating expense for the year was depreciation expense of \$798,137. Net of depreciation expense, net assets increased by \$293,320.

Expenses for the years ended June 30, 2005 and 2004, increased over the prior years. The largest increases were in the categories of health benefits and repairs.

Capital Assets

The Authority purchased equipment costing \$129,336 during the year ended June 30, 2005, and \$103,873 during the year ended June 30, 2004. Total capital assets at June 30, 2005, net of allowances for depreciation were \$13,939,043 and total capital assets at June 30, 2004, net of allowances for depreciation were \$14,608,557.

Debt

The Authority had outstanding long-term debt at June 30, 2005 of \$4,565,000. The 1995 Series Bonds were paid in full during the year ended June 30, 2005.

Future Considerations

The Authority continues to deal with sanitary sewage overflow (SSO) issues. The total cost to control SSO's have yet to be determined as specific solutions are not currently known. See Note J in the notes to financial statements for further discussion of the SSO issues.

GOGEBIC-IRON WASTEWATER AUTHORITY

June 30, 2005

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Operations

Gogebic-Iron Wastewater Authority (the Authority) was formed to acquire and operate a sewage disposal system in accordance with Act 233, Public Acts of Michigan, 1955, as amended, serving the Ironwood, Michigan and Hurley, Wisconsin, areas. The Authority owns the physical properties, is responsible for the related indebtedness and is responsible for raising monies from the participating units to cover debt principal and interest payments plus monies with which to fund operations of the system. The system is operated by the Gogebic-Iron Wastewater Board (the Board), an independent joint board comprised of members from each of the constituent municipalities participating in the sewage disposal system. The Board's source of revenues is an operating fee received from the Authority from which the Board pays the operating costs.

The incorporating municipalities creating the Authority are City of Ironwood, Township of Erwin and Charter Township of Ironwood. The Board consists of City of Ironwood, Charter Township of Ironwood and City of Hurley, Wisconsin.

Service charges for sewage treatment and disposal services charged by the Authority are set forth in a regional user charge system adopted by the participants in connection with the Federal grant received to help finance construction of the facility. Substantially all of the Authority's revenues are derived from charges to the municipalities referred to above, and credit is extended to them and to private waste haulers. The participating municipalities have an opportunity to submit recommendations prior to final adoption of annual operating budgets of the Authority and the Board.

Each participating municipality is an owner in common of an undivided interest in the facility. Each interest will be determined by its capacity share in the facility. When all revenue bonds issued in connection with the project (see Note E below) are paid in full, title to the treatment facility will pass from the Authority to the Board and title to the collection system will pass to the municipality in which the system is located.

Basis of Presentation

The Authority, because it is the organization responsible for physical properties, significant indebtedness and collections from customers, is considered the primary reporting organization for financial-statement purposes. The Authority is considered to have significant oversight responsibility over the Board, and further, the Authority has a special financing relationship with the Board. For these reasons, the Board, even though a separate legal entity, is considered as a part of the Authority for financial-reporting purposes in accordance with the provisions of the Governmental Accounting Standards Board (GASB).

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting and Measurement Focus

The accrual basis of accounting and the flow of all economic resources (measurement focus) are followed. This basis of accounting and measurement focus emphasizes the measurement of net income similar to the approach used by commercial enterprises, and revenues are recorded when earned and expenses are recorded when incurred. Under this basis of accounting and measurement focus, the Authority applies (a) all GASB pronouncements and (b) FASB Statements and Interpretations, APB Opinions and Accountants Research Bulletins issued on or before November 30, 1989, except those that conflict with a GASB pronouncement. The Authority has not adopted GASB Statement No. 20.

Cash and Cash Equivalents

Cash, as used in the Statement of Cash Flows, includes cash on hand and in bank and all cash equivalents with a maturity of three months or less.

Accounts Receivable

Accounts receivable included in current assets consist of receivables from private waste haulers.

Bad debts are accounted for using the direct write-off method. The expense is recognized only when a specific account is determined to be uncollectible. The effects of using this method approximate those of the allowance method.

Capital Assets

Items capitalized as part of property, plant and equipment, including interest during the construction period, are stated at cost.

Maintenance and Repairs

Repairs to property, plant and equipment which materially extend the useful lives are capitalized. Other repair and maintenance costs are expensed as incurred.

Depreciation

Depreciation is determined by use of the straight-line method using estimated useful lives of 40 years for buildings and sewers and 5 to 30 years for equipment.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Loan Costs

Deferred loan costs consist of various bond issuance costs incurred in connection with the revenue bonds referred to in Note E below and deferred loss on advance refunding of old debt. These costs are being amortized over the period of the bonds by charges to operations.

Bond Discount

Bond discount is the difference between the par value of the bonds and the actual proceeds from the bond issuance referred to in Note E below. This discount is being amortized over the period of the bonds by charges to operations.

Investment in Capital Assets, Net of Related Debt

This is the portion of net assets of the Authority that consists of capital assets, net of accumulated depreciation and reduced by long-term liabilities for revenue bonds attributable to the acquisition, construction or improvement of those assets.

Restricted Net Assets

Net assets are restricted when there are constraints placed on their use by external parties or by statute.

Unrestricted Net Assets

Net assets not meeting either criteria above are considered unrestricted.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE B – CASH, CASH EQUIVALENTS AND INVESTMENTS

Deposits were made in accordance with State of Michigan statutes and under authorization of the Board of Trustees. The Board of Trustees authorizes cash to be deposited in banks located within the State of Michigan which are insured by Federal Deposit Insurance Corporation or its successor and in United States government obligations, or obligations the principal of and interest on which is fully guaranteed by the United States government and in other instruments as permitted by PA 20 of 1943, as amended. Cash and cash equivalents are carried at cost plus accrued interest. Investments are carried at fair market value. All investments consist of certificates of deposit, government securities and corporate fixed income securities. The amount displayed on the Balance Sheet as "Cash and cash equivalents and investments" consisted of:

Cash and cash equivalents:	
Cash on hand and in transit	\$ 125
Deposits in demand deposit accounts in a local bank	117,028
Uninsured money market mutual funds	<u>564,140</u>
	\$ 681,293

Corporate fixed income securities	<u>1,309,242</u>
	\$ <u>2,021,320</u>
	<u>\$ 2,702,613</u>

The Authority's investments are categorized to give an indication of the level of risk assumed by the Authority at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the Authority or its agent in the Authority's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the agent in the Authority's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the Agent. All of the Authority's investments in government securities and corporate fund income securities are categorized as Category 1 investments.

NOTE D – RESTRICTED ASSETS

The Authority has four restricted bank accounts. Three are restricted by the bond ordinance and one is restricted by action of the Authority Board of Trustees.

The bond ordinance requires that monthly deposits be made into the Bond and Interest Redemption Account sufficient to pay the next interest and principal payment. The Bond Reserve Account is to be used to pay any delinquent bond payments. The Equipment Replacement Account is to be used for repairs and replacements to the facility.

The Board of Trustees has established a separate bank account for revenue received from liquid waste haulers, to which monies use are restricted by the Board. This account has been labeled as a Special Purpose Account.

Restricted accounts with required funding levels are as follows at June 30, 2005:

	Bond and Interest <u>Redemption</u>	Bond <u>Reserve</u>	Equipment <u>Replacement</u>	Special <u>Purpose</u>

NOTE F - DEFINED BENEFIT PENSION PLAN

Plan Description

The Board's defined benefit pension plan provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. The Plan is affiliated with the Municipal Employees Retirement System of Michigan (MERS), an agent multiple-employer pension plan administered by Gabriel, Roeder, Smith & Company. Act No. 427 of the Public Acts of 1984, as amended, and the Constitution of the State of Michigan assigns the authority to establish and amend the benefit provisions of the plans that participate in MERS to the respective employer entities; for the Plan, that authority rests with the Board. Gabriel, Roeder, Smith & Company issues a publicly available financial report that includes financial statements and required supplementary information for MERS. That report may be obtained by writing to Gabriel, Roeder, Smith & Company, One Towne Square, Suite 800, Southfield, Michigan 48076 or by calling (248) 799-9000.

Funding Policy

Plan members are required to contribute 6.1% of their annual covered salary. The Board is required to contribute at an actuarially determined rate; the current rate is 14.34% of annual covered payroll. The contribution requirements of plan members and the Board are established and may be amended by the MERS Board of Trustees.

Annual Pension Cost

For the year ended June 30, 2005, the Board's annual pension cost of \$41,410 for the Plan was equal to the Board's required and actual contributions. The required contribution was determined as part of the December 31, 2002, actuarial valuation using the entry age normal funding method. The actuarial assumptions included (a) 8% investment rate of return (net of administrative expenses), (b) projected salary increases of 4.5% per year, additional projected salary increases ranging from 0.0% to 8.40% per year and (c) 2.5% per year cost-of-living adjustments. The actuarial value of the Plan assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The Plan's unfunded actuarial accrued liability is being amortized by level percent of payroll contributions. The amortization period at December 31, 2004, was 30 years.

NOTE G - SIMPLIFIED EMPLOYEE PENSION PLAN

All employees of the Authority are covered by a simplified employee pension plan administered by Edward Jones & Company. The Plan is a simplified employee pension plan covering all employees who have performed services for the Authority in at least two of the immediately preceding five years.

Pursuant to terms of the current union contract, the Authority is required to contribute \$20,000 annually to the Plan. Employees do not make contributions to the Plan. The Authority's payroll for employees covered by the Plan for the year ended June 30, 2005, was \$252,925. There were wages of \$65,452 paid to employees not covered by the Plan. All participants are fully vested immediately. Contributions to the Plan become the sole property of the participants. All contributions are invested for the participants in up to three of nineteen available mutual funds, at the discretion of each participant.

During the year ended June 30, 2005, the Authority made contributions to the Plan of \$20,000.

NOTE H - ACCUMULATED ABSENCES

Under a union contract negotiated with employees, individual employees have a vested right to receive payments for unused sick, personal and vacation leave. The dollar amount of these vested rights, which is recorded in the financial statements as a liability as of June 30, 2005, is \$16,105 for vacation leave and \$77,382 for sick leave.

Following is a summary of employment policies related to accumulated absences:

Sick Leave

Sick leave is earned thirteen days for each completed year of service and may generally be accumulated up to 1,600 hours.

Employees receive cash payment upon retirement of 100 percent of accumulated sick days at current hourly rates of pay with an 800-hour maximum payout for hourly employees and 960-hour maximum for salaried employees.

Vacation Leave

Vacation leave is earned in varying amounts depending upon years of service and may generally be accumulated up to 30 days. Upon termination, employees receive cash payment for all unused vacation leave at current hourly rates of pay.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE I - RISK MANAGEMENT

The Authority is exposed to various risks of loss related to property loss, torts, errors and omissions and employee injuries. The Authority has obtained coverage from commercial insurance companies. The Authority has comprehensive general liability coverage of \$5,000,000 per occurrence, with no deductible amount, and wrongful acts coverage of \$5,000,000 per occurrence, with no deductible amount. The Authority carries commercial insurance for all other risks of loss, including workers' compensation and employee health and accident insurance.

The Authority's liabilities for its share of losses are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities can include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. The Authority estimates that the potential unpaid and unreported claims do not substantially exceed the amount of deductibles.

Management estimates that the amount of actual or potential claims against the Authority as of June 30, 2005, will not materially affect the financial condition of the Authority. Therefore, the financial statements contain no provision for estimated claims. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

NOTE J - SANITARY SEWAGE OVERFLOW (SSO) ISSUE

In June 2002, the Authority received a draft of an Administrative Consent Order (ACO) issued by the Michigan Department of Environmental Quality. This ACO addresses the illegal discharges that occur when the Authority experiences high wastewater flows due to the excessive inflow and infiltration of clearwater during periods of rainfall or snowmelt. The State required the Authority to submit a written plan by December 20, 2002, explaining how the Authority will correct the SSO problem. In July 2002, the Authority engaged an engineering firm to study the sanitary sewer collection system. At June 30, 2005, the engineering firm continued to study the problems. The State required the Authority to submit a written report detailing the results of this study by December 19, 2004, explaining how the Authority will correct the SSO problem. The Authority entered into agreements with each member community for the allocation and enforcement of peak flows as requested by the State. The State requires scheduled projects to eliminate the SSO be completed by November 15, 2007. The total cost to control SSOs have yet to be determined as specific solutions are not currently known.
